

Help Out on State Natural Areas

Maiden Rock Bluff Workday

Get outside and enjoy the view! Maiden Rock is known for peregrine falcons, 400 foot bluffs, and rare plants. But there are concerns; invasive brush and red cedar are invading the remnant bluff prairie and oak savanna. We will remove invasive buckthorn and other woody vegetation. The work takes energy and may be on uneven terrain. You will be trained onsite.

Info about Maiden Rock Bluff:

<http://dnr.wi.gov/topic/Lands/naturalareas/index.asp?SNA=410>

Date: December 7

Time: 9am-1:00pm
